

SPAJAJUĆI VEKOVE BRIDGING THE CENTURIES

DAH TEATAR 30 GODINA
DAH THEATRE 30 YEARS
www.dahteatarcentar.com

23-27. JUNI 2021.

Through its 30 years of existence, the DAH Theater has created links between artists and audiences from all over the world, between people of different nationalities, professional, political, racial, sexual and all other orientations, between generations and artistic directions. With the event "Bridging the Centuries", we celebrate the duration of an artistic collective/theater troupe, we celebrate the meaning and necessity of art and theater as a way of resisting senselessness and destruction.

DAH Theater (founded in 1991) is a contemporary theater, an artistic collective, which, using the techniques of contemporary theater, creates engaged art with the intention of influencing the positive development of society. Working at the crossroads between theater, dance and visual arts, DAH Theater creates performances and artistic-educational projects with a vision of creating a non-violent and tolerant society.
